Professional Summary

Full Stack Developer skilled in building scalable, responsive, and user-friendly web applications across both frontend and backend, primarily in edtech and business automation. Proficient in React (Hooks, Context API), TypeScript, Node.js, Express.js, and Tailwind CSS, with a strong grasp of RESTful API development and database management using SQL and MongoDB. Adept at collaborating in agile teams, writing clean, maintainable code, and deploying applications to cloud platforms. Seeking opportunities in fast-paced product-based organizations.

Technical Skills

Languages: Python, SQL, HTML, CSS, JavaScript, TypeScript
Frontend: React, Tailwind CSS, Shadcn UI
Backend: Node.js, Flask
Databases: MySQL, PostgreSQL, MongoDB
DevOps & Tools: Git, GitHub, Postman, VS Code, Vercel

Work Experience

Full Stack Developer Intern 2024 – 2025
Edubot Software and Services *Vijayawada, India*

- Built responsive and scalable front-end interfaces using React, TypeScript, Tailwind CSS, and Shadcn UI.
- Developed and deployed the company's official website showcasing its vision, mission, and services.
- Implemented RESTful APIs with Node.js and Express.js for seamless integration between frontend and backend systems.
- Collaborated in Agile sprints with cross-functional teams to deliver features on time.
- **Technologies:** React, TypeScript, Node.js, Tailwind CSS, SQL, Git

Projects

YouTube Transcript Summarizer | *Python, Flask, Google Gemini AI* 2024

- Developed a web app using Flask and Gemini AI to generate detailed summaries from YouTube transcripts.
- Handled backend logic for transcript extraction and text processing using Python libraries.

Disease Predictor & AI Prescription Generator | *Python, scikit-learn, Flask, Streamlit* 2025

- Built a machine-learning based disease prediction system that analyzes user-entered symptoms to predict potential illnesses with a pre-trained scikit-learn model.
- Integrated audio prescription generation in English and Telugu using audio processing libraries, with a simple user interface built in Streamlit.

WithUs - Farm to Door Delivery Platform | *React.js, TypeScript, Tailwind CSS, FastAPI, PostgreSQL* 2025

- Developed a full-stack farm-to-door delivery platform offering fresh fruits, vegetables, dairy, and beverages with a modern, responsive UI.
- Built end-to-end modules including product listings, order management, and customer review systems for a complete e-commerce experience.

Education

Rajiv Gandhi University of Knowledge Technologies Nuzvid, AP, India
Bachelor of Technology in Computer Science *2025 — CGPA: 8.51*

Rajiv Gandhi University of Knowledge Technologies Nuzvid, AP, India
Pre-University Course (PUC) *2021 — CGPA: 9.34*

Z.P. High School Vemulapudi, AP, India
Secondary School Certificate (SSC) *2019 — CGPA: 10*

Certifications

AI for Everyone: Master the Basics by IBM - edX
