Professional Summary

Software Engineer and 2025 Computer Science graduate with professional experience in full-stack web development and prior internship experience. Skilled in JavaScript, Node.js, React.js, RESTful APIs, and PostgreSQL. Experienced in developing responsive user interfaces, building backend APIs, integrating third-party services, and deploying web applications. Strong foundation in software development and problem-solving, with an interest in expanding full-stack development expertise.

Technical Skills

Languages: JavaScript, Python, SQL, HTML, CSS
Frontend: React.js, Tailwind CSS
Backend: Node.js, Express.js, RESTful APIs
Databases: PostgreSQL
Cloud & DevOps: AWS (EC2, RDS, S3), Vercel, Git, GitHub
Tools: Postman, VS Code

Work Experience

Software Engineer Nov 2025 – Present
nRich IT Consulting Services *Visakhapatnam, India*

- Contributed to migrating legacy PHP backend functionality to Node.js across a client-facing mobile application, website, and admin portal.
- Developed and maintained backend APIs and integrated application functionality to support reliable frontend-backend communication.
- Built responsive web interfaces using React.js, TypeScript, and Tailwind CSS, focusing on reusable components and maintainable code.
- Integrated Twilio Flex for live customer communication and implemented API rate limiting to improve backend reliability.
- **Technologies:** Node.js, React.js, TypeScript, Tailwind CSS, PostgreSQL, AWS (EC2, RDS, S3), Twilio, WhatsApp API, Git

Full Stack Developer Intern 2024 – 2025
Edubot Software and Services *Vijayawada, India*

- Developed responsive and reusable user interfaces using React.js, TypeScript, Tailwind CSS, and Shadcn UI for web applications.
- Participated in Agile sprints, collaborating with designers, backend engineers, and product managers to ship features iteratively and on schedule.
- **Technologies:** React.js, TypeScript, Node.js, Express.js, Tailwind CSS, PostgreSQL, Git

Projects

WithUs - Farm to Door Delivery Platform | *React.js, TypeScript, Tailwind CSS, Node.js, PostgreSQL* 2026

- Designed and built a full-stack Farm-to-Door delivery platform end-to-end, featuring product listings, cart management, and order placement for customers.
- Built a complete admin dashboard to manage products, track orders, and handle operational workflows.
- Designed and implemented RESTful backend APIs with Node.js and integrated PostgreSQL for efficient, structured data management.
- Deployed frontend on Vercel and backend on AWS (EC2, RDS, S3) — fully production-hosted with real infrastructure.

Disease Predictor & AI Prescription Generator | *Python, scikit-learn, Flask, Streamlit* 2025

- Trained a machine learning classification model using scikit-learn to predict diseases from user-entered symptoms.
- Generated multilingual audio prescriptions in English and Telugu using speech processing libraries, making the tool accessible to regional users.
- Built an interactive UI with Streamlit and served predictions via a Flask backend.

YouTube Transcript Summarizer | *Python, Flask, Google Gemini AI* 2024

- Built an AI-powered web app that extracts YouTube transcripts and generates concise summaries using Google Gemini AI.
- Implemented backend pipeline for transcript extraction, text chunking, and Gemini API integration for accurate summarization.

Education

IIIT - Nuzvid — AP, India
Bachelor of Technology in Computer Science — *2021 – 2025 | CGPA: 8.6*

IIIT - Nuzvid — AP, India
Pre-University Course (PUC) — *2019 – 2021 | CGPA: 9.34*

Z.P. High School - Vemulapudi — AP, India
Secondary School Certificate (SSC) — *2019 | CGPA: 10*

Certifications

Claude Code in Action — Anthropic (2026)

AI for Everyone: Master the Basics — IBM (edX)

Job Oriented Training and Internship Program — Edubot Software and Services (2024)

Key Strengths

- Ability to translate designs into functional, responsive, and intuitive user interfaces.
- Effective communication and teamwork skills in a remote environment.
- Analytical problem-solving skills with keen attention to detail.
